APPENDIX B: PLANNING GUIDANCE

ARCHAEOLOGY AND PLANNING (PPG 16, 1990)

Archaeology and Planning (PPG 16, 1990), provides guidance relating to archaeology within the planning process. It points out that where a desk-based assessment has highlighted the possibility for significant archaeological deposits within a development area, it is reasonable to provide more detailed information from a field evaluation so that an appropriate strategy to mitigate the effects of development on archaeology can be devised:

Paragraph 21 states:

'Where early discussions with local planning authorities or the developer's own research indicate that important archaeological remains may exist, it is reasonable for the planning authority to request the prospective developer to arrange for an archaeological field evaluation to be carried out....'

Should the presence of archaeological deposits be confirmed, further guidance is provided. *Archaeology and Planning* stresses preservation *in situ* of archaeological deposits as a first consideration:

Paragraph 8:

'Where nationally important archaeological remains, whether scheduled or not, and their settings, are affected by proposed development there should be a presumption in favour of their physical preservation.'

Paragraph 18 states:

'The desirability of preserving an ancient monument and its setting is a material consideration in determining planning applications whether that monument is scheduled or unscheduled.'

However, for archaeological deposits that are not of such significance, it is appropriate for them to be 'preserved by record' (i.e., fully excavated and recorded by a competent archaeological contractor) prior to their destruction or damage.

Paragraph 25 states:

'Where planning authorities decide that the physical preservation *in situ* of archaeological remains is not justified in the circumstances of the case and that development resulting in then destruction of the archaeological remains should proceed, it would be entirely reasonable for the planning authority to satisfy itself that the developer has made appropriate and satisfactory provision for the excavation and recording of the remains.'

APPENDIX C: LEICESTERSHIRE COUNTY COUNCIL'S HER DATA

Start of record
MonUID MLE4958
Preferred Ref. MLE4958
Name 13, Highcroft Avenue
Map Sheet SP69NW
Grid Reference Centroid SP 630 997 (MBR: 100m by 100m)
Summary Foundations of an undated building were observed in 1964.
