

Statement from MR (Oadby resident)
Received 26 April 2012

As requested at the meeting I attended this morning, I am objecting to the alterations planned for Sandhurst Street multi-storey car park. Sandhurst Street is a residential area.

It is not a proper place for a multi-storey car park in the centre of Oadby as there is enough traffic without an unsightly building and there is no access except for Sandhurst Street and shoppers will not be happy to use this as many of these people will be elderly and shops will be empty as well as causing a nuisance to residents and create youths at night. It would also be unacceptable by the residents whose bungalows would be overlooked taking away their privacy.

If this proposal goes ahead would there be another access point?

I have lived in Oadby all my life and my house for over 60 years and I feel Oadby had changed enough, especially in this area. I hope the little green park with its lovely trees will remain as it is. I suppose my house will lose its value anyway.

I look forward to hearing from you about the date we will be seeing you when you visit Oadby.
