

**Situation Update from Michael Lambert, Leicestershire Police
Received 27 April 2012**

There are 5 matters which the Council have logged from my comments and my take on these is as follows-

Rep 163/108] There are three matters here. Whilst I could suggest that positive preparation of the plan would have been achieved with Police involvement in Masterplanning as requested and involvement with the Police rather than just being sent the document at formal stages, I don't see this as a matter worthy of pursuit with changes at this stage. I accept what the Council has to say on this.

Rep 163/109] This was a supportive statement from Leicestershire Police and again I accept the Council's view that no changes are necessary.

Rep 163/110] I am not content with the Council's response here. I will prepare a statement with sections for the Council to agree as common ground. The Plan is clear on the purpose of the infrastructure schedule and I see no reason why what we will need, especially precipitated by new development and increased activity in these town centres, which are both promoted by the Plan, should not be included alongside the needs of other essential service providers. I still believe the Infrastructure schedule should be added to in this respect.

Rep 163/111] Post my comments I did prepare the Police infrastructure Plan to accompany growth proposed in the Borough and provided this to the Council in February. The intent of this is to inform the next iteration of the Council's infrastructure Plans and its preparations for CIL and I will refer to this in my statement. Regardless I believe the AAP should include our intent to achieve a Police presence in the heart of Oadby Town centre and that it should support this. I note as a comparable the position as regards health facilities in Wigston. I will cover this in my statement.

Rep 163/112] I see the Council take up our suggestion as far as monitoring is concerned. This is probably best delivered through our current participation in the local Partnership which already reviews crime information. I have nothing further to add on this.
